QUENTIN RATHONIE

SENIOR IOS DEVELOPER

quentinrathonie.com

ABOUT ME

I'm a French software engineer and entrepreneur based in Lyon.
I'm a freelance in native iOS mobile development (Swift & SwiftUI) and I also work on my own projects.

I have founded a few apps and am still working on many more ideas.

EXPERIENCES

iOS Lead Developer

Rewind (2022 - Present)

Built the app from scratch using Swift UIKit.
- MVVM architecture
- Manage user account
- Purchase flow
- Mapbox, user location, geofencing, etc
- Download and play audio files
- Offline and background modes
- TestFlight beta and App Store publication
- Roadmaps
- Estimations (cost, time, etc)
- QA

iOS Developer

LALALAB (2022 - 2024)

Joined a team to work on LALALAB, myPhotoweb and Fnac Photo iOS/iPadOS apps.
- Develop new features
- Fix bugs
- Code review
- Convert Objective-C legacy code to Swift
- Fastlane scripts / config
- Handle multiple targets inside a single app
- Unit tests

Mobile Software Engineer

FreshDev (2018 - 2021)

From scratch or not, I worked on various apps and dealt with a lot of different frameworks and libraries.
I mostly used Swift UIKit but also worked with Kotlin/Java, React and Flutter.

EDUCATION

Master MIAGE - 2020
Computer Methods Applied to Business Management

Aix-Marseille Université

This master degree allowed me to acquire skills in project management, marketing, communication, BI and entrepreneurship.

BTS SIO - 2017
IT Services for Organizations

Cité scolaire Albert Londres

This course brought me skills in network administration and developement.
